Why?

- 1. Understanding the overall value** of education in a research university in management engineering.
- 2. Appreciating the heterogeneity** of methods and approaches.
- 3. Designing effective** education programs in terms of contents, methods and learning journey.

How?

Time and room for interactions

Three main modules (following the path traced by Palermo's Summer School):

Perspectives: lectures by experts (*the teaching-research continuum; active learning; a global perspective on management engineering; EFMD (Business Schools) and companies' perspective*)

Tools: methods, best practices and experiences (*AllIG best practices; problem-based learning; innovative technologies in teaching; evaluation issues; soft skills; course design*)

Labs: individual and team work (*AllIG & Unibg Mentors; assess and develop your own syllabus*)
